### THE INDUSTRIAL REVOLUTION

The Industrial Revolution has finally touched UP ROPE. We have eliminated much of the hand work associated with the production of UP ROPE. The crankerous 35 year old mimeograph machine in the basement of the PATC was replaced by a Rex Rotary mimeograph machine bought by the PATC, assisted with a small contribution from UP ROPE. The machine operates on the offset principle for better reproduction and incidentally, for ink-free fingers. Our envelopes have a new appearance as some of you may have noticed with the previous issue. The envelopes are addressed by Addressograph and the return address is printed in lieu of being hand stamped.
