Local trips meet at 8:00 AM\* at the Howard Johnson's, Wisconsin at Western Avenues, N.W. Bring lunch and drink. Do not call the Howard Johnson's for information. A note is left every Sunday behind the drain pipe on the southeast corner of the building, giving location and/or directions for latecomers.

\*This just shows how idealistic we are. We all know we never leave before 9:00.

### ARE WE OUR BROTHER'S KEEPER?

Climbers are an independent bunch of people as people go. They generally don't give a darned needle what other climbers do especially if they are from another group or more so from another area.

But when climbers from two different locals climb in a common area, then the affects of one group will be reflected on the other. In other parts of the country climbers frequently have been stopped, or at best restricted, from climbing where an accident occurs. We, our Pittsburgh friends, and others have been very fortunate at Seneca Rocks, where we can climb without any restrictions on private land. What would be the effect on Messrs. Harper and Armentrout were a serious accident to occur on their property? What brings this to mind is a letter received from an UP ROPE subscriber away at college.

"... there are quite a few people here, cavers, etc., who are gung-ho to go on a climbing trip. None of them know anything, but they plan to go to Seneca Rock
