## NOW HEAR THIS!

Effective immediately, the official meeting place and point of departure for Sunday climbing trips is the north side of the Chevy Chase Center--the shopping center just north of Howard Johnson's on the east side of Wisconsin Avenue. Meet under the arcade between the Giant Food Store and Fanny Farmer Candy Store. Departure time--8:30 a.m. Note with day's destination will be left on right side of phone booth (652-9854) by entrance to Giant Food Store. (see map below)

It seems the "Stork" has been visiting the Rock Climbers recently. On May 14 Whitey and Cindy Eubank became the proud parents of Jonathan Twain, weighing in at 7 lbs. 8 ozs. All reports indicate Mother and Son are doing fine---No word on Father's condition as yet but we will assume he is holding the fort!!

We also have heard that Bob and Sue Broughton are sporting?? a new baby boy! No reports on Mother and Father yet---BUT---Sue was seen on TOP of the rocks at Caudy's Castle????

-----  
 Moose Remington is organizing a climbing school. Qualified persons interested in participating as instructors please contact Joe Nolte (MA 2-0912)

POLLUTION

With shame and disappointment we report that certain of our own people were seen recently throwing cans and bottles into the Potomac at Echo Cliffs. Have we forgotten our slogan, "If you can carry it in, you can carry it out also"??? Let each and every one of us make sure that we carry away our own litter---papers, cans and bottles---This will help to keep our climbing and camping areas as clean as we would like to find them; and, will also help cut down on the pollution of our rivers, which causes unsightly floating rubbish and kills off game fish. Furthermore, it will set a good example for others. Are these results not worth the effort?

There were a lot of girls present at first but soon they and Tom left and we were able to settle down to serious climbing!

Allan and Clyde attempted to put up a new route to the right of the Barn Roof, and when they failed Bob Adams moved in and completed it. A real nice job, Bob.

Just because I pulled the poison ivy off a climb, Bob Adams nearly retreated into Pennsylvania. Gee, it's only a plant, Bob, and I didn't get a bit of rash!!

Some of the climbers swam over to the Pot Holes, taking a rope along and climbed there. Gloria pretended to be in trouble in the middle of the river, but Bobby took no chances and rescued her???? hmmm??

A.T. (after Tuohey's) - Glen Echo beckoned. So off we went, dressed for a climb, and rode the roller coaster. Endsville for a fine day before going Homesville for the night.

\* Paul Bradt is hardly known to the present group of climbers, but should be well remembered by the old timers.

According to Arnold Wexler, he is a sort of "grandfather" to the group, having brought a number of now favorite climbing areas to the attention of the founding fathers in the early 1940'
