November 1985

Number 11

### SECTION ELECTIONS TO BE HELD IN JANUARY

The Nominating Committee, chaired by Clair Witt, reports that nominations have been opened and the following members have been named:

For Chairman	Stuart Pregnall
For Vice Chairman	Pete Grant
For Secretary	Selma Hanel
For Treasurer	Karen Roussell

Nominations remain open till January 8. Please make additional nominations to the members of the nominating committee. Nominees must be members in good standing of the Mountaineering Section, the candidate(s) for chairman must also be members of the Potomac Appalachian Trail Club.

### Seneca flood damage

The recent flooding of parts of Virginia and West Virginia has also caused grave damage to Mouth of Seneca, report several members who visited there during the last weeks. The road between Moorefield and Petersburg is still closed and Seneca is reached by alternate routes. There is no camping along the river and more important there is no drinking water available. The swinging bridge was washed away and pavillion and visitors center were devastated. Barbara Llewellyn and Martha Hale report that there is a need for household items, dishes, sheets and the like and plans are being made to help flood victims in the Seneca area. We plan to report in more detail about the situation at Seneca in the next issue.

### Dues for 1986

Annual dues for next year are payable before January 1986 to avoid having your membership lapse, says David Atkinson, Section Treasurer. To make it easier to get your money to the Section and to help you remember this important responsibility, a dues notice with a self-addressed return envelope was mailed to each member, late last month. The Treasurer reports that the response to this new way of collecting dues is encouraging and that checks are coming in now, practically every day.

### Charles Nelson, Section Honorary Member

In gratitude to Charles Nelson for his willingness to let the Section use his farm house and for his friendship, Section members voted to make him an honorary member. The motion was offered at the meeting on November 13 and carried unanimously.

FUTURE CLIMBS

HELP! I've had several people ask about climbing in places that aren't included on the climbers calendar. If there is somewhere you'd like to go, please call me (338-6140). I'll make additions to the calendar and have them included in the next UP ROPE.

Are there ice climbers out there interested in venturing up to check out rumors of ice in Ricketts Glen, Delaware Water Gap and Riegelsville, Pennsylvania and upstate New York? If so, let me know. I'll try to round up a few winter weekend trips to these places if there is any interest. Stuart Peggall

U.S. Government honors Section members

Earlier this summer, Herb and Jan Conn were awarded the Conservation Service Award by Don Hodel, Secretary of the Interior. After they left the Washington area in the 1950s and moved to Custer SD they spent the last 15 years exploring and charting Jewel Cave. The cave is a national monument and Herb and Jan first entered it in September 1959 and by 1980 had explored about 63 miles underground.

The Conns helped found UP ROPE, were active in the Mountaineering Section in the 1940s and 1950s and put up numerous new routes in the area, to wit: Jan's Face, Conn East and West and others. In recognition of their service to the climbing community and to the Section, they were later made honorary section members.

Nelson House: Nori Gessler is taking over from Marcy Logan as supervisor for the Nelson House. During the past two years Marcy organized work trips to paint and maintain this foothold in the Seneca area and contributed countless hours and money to obtain and transport the necessary materials. Nori will also assume the editorship of UP ROPE in 1986.

HANGING AROUNDSugarloaf, September 29

A few new faces and a couple we haven't seen in some time showed up on a gorgeous Sunday out at Sugarloaf. We climbed on the lower slaps, but farther to the right than we usually do, mostly in deference to the up and coming Reagan Administration officials that climbed with us that day.

The routes that we roped up aren't in the usual repertoire of climbs, and some of them were quite pleasant, some of them quite challenging. For the most part, short overhanging walls were the problems. We climbed until about three thirty, and then nobbled off to Roy's for sustenance. Along were Clair Witt, Ed Cummings, Cedric, Edgar, Bill Hieronymous, Kathy Rebibo, Paul, Betsy and Jason Guthrie, Richard Cunningham, Anne Baron, Bob Gasser, Karen Roussell, and trip leader Stuart Pregnall and Genesis.

Chimney Rocks VA, November 17

It seems that we have been rather lucky with the weather this climbing season. After having rained all day Saturday, and the streets (and most likely, the rocks too) still wet on Sunday morning, the forecasters insisted that we would have pleasant temperatures and no rain for the day. Well, they hit it right on the nail head; couldn't have asked for a better November day for climbing!

An even dozen people showed up for the climb. Gary, Jacques, Tom and I led routes up the walls and fixed top ropes. Mark and Charlie scrambled to the top to put up another rope and a few more were done later during the day. Some local climbers showed up a bit later from whom we found out that the crags have been mapped and the climbs rated. The favorite climb of the day was one called "B&M," a 5.8 that was rather continuous for most of its 60-foot length.

The finale for the day was the workout on the overhang at the south end of the rocks. Several of us tried, but only Gary was able to make it--and he made it look sooo easy, embarrassing the rest of us of lesser ability.

Participants: Gary Beil, Mark O'Connor, Selma Hamel, Kathy Rebibo, Gordon Swenson, Charlie ?, Vicky Smith, Tom Isaacson, Bob Gasser, Rich Cunningham and I. Pete Grant

What do these classes mean?

Mountaineers often say "it was a typical class 3 route," and everybody either knows or pretends to understand what is meant. As a refresher to the old hands and an aid to pretenders and novices, here's a summary of route categories:

Class 1 hiking. Class 2 Talus and scree walking which can be unstable. Hands are sometimes used for balance. Class 3 Hand and footholds are necessary in more exposed situations than 2. Class 4 Usually steep rock with much smaller holds and great exposure; use of rope. Class 5 Difficult climbing on steep rock which requires protection and the proper use of ropes and belays.
